

## District Family Engagement Liaison (DFEL) Program

The DFEL Program is about communication and relationship-building between families and schools. DFELs receive training to build their knowledge, skills, confidence, and connections in the areas of IEPs, Transition Planning, Special Education Resources, Confidentiality & Student Records, and Family Engagement. Effective communication strategies and partnership-building are woven throughout each training session.

### Promoting Partnership Between Home & School

Training is offered statewide via Zoom for all DFELs. Training materials are provided in an electronic format and printed materials are available upon request. Your local Regional WSPEI Coordinators will provide ongoing support and mentoring. Please register at the link below and chose one date and time for each session offered. Each DFEL attends 3 training sessions.
