

**Time: 3:30pm-4:30pm**  
**Location: Virtual/Online**  
**NO COST**

## SNS Year Long Cohort Learning Events

Come join a learning community around topics connected to students with neurodiverse needs. This cohort will meet monthly from 3:30-4:30 to learn with and from each other. Content for each session is available beforehand, online at [snswi.com](https://snswi.com), so only a small amount of time for each meeting will be on topic review, leaving more time to discuss and connect with others. Teams are encouraged to attend together but individuals are most welcome. Participants will be encouraged to unmute and join in conversations in breakout rooms. Registration is required for ALL attendees and includes ALL sessions. You do not need to attend all events, join when you can or for the subjects that interest you.
